

DRYGELWORLD

KAMRAN ENTERPRISES · DESICCANT MANUFACTURER & EXPORTER · KARACHI, PAKISTAN · SINCE 1983

PACKAGING & MATERIALS DECLARATION

Supplier declaration, issued and signed by the manufacturer. This is not a third-party certificate and is not issued by any certification body.

Issued by	DryGelWorld (Kamran Enterprises)	Date of issue	29 August 2026
Head office	A-488, Block 1, Gulshan-e-Iqbal, Karachi, Sindh 74000, Pakistan	Reference	DGW-PMD-2026-01
Manufacturing	Plot 59, ST 13/1, Sector 6B, North Karachi Industrial Area, Karachi	Contact	sales@drygelworld.com +92 333 022 3337

1. QUALITY MANAGEMENT SYSTEM

The certificate below is held by this company and can be verified independently with the registrar. Its scope is quoted exactly as issued.

Field	As stated on the certificate
Standard	BS EN ISO 9001:2015
Certificate no.	9101225
Scope (verbatim)	"Packaging and Supply of Silica Desiccant" — NACE 8292
Certified entity	Kamran Enterprises, Plot 59, ST 13/1, Sector 6B, North Karachi Industrial Area, Karachi, Pakistan
Registrar	QMEC Group Intl, United Kingdom — accredited by IAS-CB, accreditation no. 17240831
Approved / expires	10 December 2025 — 09 December 2028, subject to surveillance audit
Verify at	www.qmecgroup.org

Note on scope: the registered scope names silica desiccant. It is reproduced here as issued and is not represented as covering the clay desiccant line.

2. PACKAGING FORMATS SUPPLIED

Sachet substrate is selected per order and confirmed in writing on the proforma invoice before production. The following formats are supplied:

Format	Description	Typical use
Breathable kraft paper	Porous unbleached kraft paper sachet, heat-sealed	General export cartons, apparel, footwear, hardware
Non-woven fabric	Spunbond non-woven sachet, heat-sealed	Dust-sensitive goods, higher abrasion resistance
Tyvek / PE film	Spunbond polyethylene or laminated film sachet	Electronics, optical and moisture-critical packing
Outer packing	Corrugated export cartons; master polybag on request	All formats

No forestry, chain-of-custody, recycled-content or environmental certification is claimed for any of these substrates. Where a buyer's programme requires one, it must be agreed before order confirmation.

3. DESICCANT MATERIALS

Material	Chemical identity	CAS no.
Silica gel	Amorphous silicon dioxide (synthetic)	7631-86-9
Clay desiccant	Activated bentonite / montmorillonite clay (natural mineral)	1302-78-9

4. TEST EVIDENCE ON FILE

Copies of the reports below are released on request. Each covers the specific material, lot and analyte named — nothing beyond it.

Document	Issued by / date	Scope tested	Result
Test report TAOEC26007318501	SGS-CSTC Standards Technical Services (Qingdao) Co. Ltd 29 June 2026	Dimethyl fumarate (DMF) against REACH Annex XVII Entry 61 / EU 412/2012. Sample: white silica gel. Method: GC-MS.	Not detected (MDL 0.1 mg/kg) Pass

Document	Issued by / date	Scope tested	Result
Certificate of Analysis Lot 034-4	Shenulon Chemicals Imp. & Exp. Co. Ltd, Qingdao 21 January 2026	Activated clay 2–4 mm: adsorption at 90% RH / 25°C, bulk density, loss on heating, pH, qualified size ratio.	Adsorption 41.1 (spec ≥ 26.0) Density 1.16 g/ml LOI 0.96 · pH 7.5 Size ratio 95.4%

Both reports originate in the material supply chain and were issued to the respective material suppliers, not to DryGelWorld. They are held on file as incoming-material evidence. The clay figures are those of one named lot and are not a guaranteed specification; a certificate of analysis for the buyer's own consignment is issued with shipment.

5. CERTIFICATIONS NOT HELD

Stated plainly so that a buyer's compliance review is not built on an assumption. None of the following is held by this company, and none is claimed:

Not held	What a buyer who requires it should do
FSC or PEFC chain of custody	Raise before order confirmation; substrate sourcing would have to be arranged specifically
FDA food-contact (FCN / GRAS), FSSC 22000, EU 1935/2004	Do not assume food-contact coverage for any format
Pharmaceutical GMP / FDA Drug Master File	A DMF-free statement is held; that is a different thing from a Drug Master File
REACH registration	DryGelWorld is not an EU registrant. The test in section 4 is a single-analyte restriction test, not a registration
RoHS / heavy-metal test report	No heavy-metal testing is held on file
Halal (PNAC / PHA)	Required by some GCC programmes; confirm before commercial terms

6. DECLARATION

I declare that the statements in this document are accurate to the best of my knowledge on the date of issue, that the certificate and test reports referenced are held on file and are released to buyers on request, and that no certification beyond those named in section 1 is held or implied.
